

## **Information about the application for regional workshops**

Regional workshops organized by DGFF members can be supported financially as well. The idea is to provide start-up-financing for organizing workshops before the monetary basis has been established through appropriate grants. Please submit your proposal for the coming year to the DGFF-president ([vorstand@dgff.de](mailto:vorstand@dgff.de) – email attachment is sufficient) until December 31 at the latest so that the chairpersons and council members can discuss it at their annual meeting in January.

The proposal ideally contains a detailed overview of the topics and planned proceedings as well as a financial plan that documents supporting grants and planned expenses. The chairpersons and council members decide on all incoming proposals. This regulation has been valid since 2005.
